

Demystifying eBook Downloads

Kindles with WiFi

(All 6" & 7" models sold since 8/2010)

Note: Steps 1-5 are performed on a computer, not on the Kindle, except for the Kindle Fire. All steps can be performed directly on the Fire.

1. Access the Library's catalog of eBooks via the **eBooks** link near the top of the *hinsdalelibrary.info* website.
2. Click **My Digital Account** on the top navigation bar and select Hinsdale Public Library from the list of libraries.
[To skip the previous steps, simply visit *tinyurl.com/HPL-emedialibrary*]. Login using your Hinsdale library card number with **your last name as the password**.
3. Once you find a title you like in the Kindle format, click **add to digital basket**. When you've finished adding titles (up to five), **proceed to checkout** and **confirm checkout**.
4. From **My Digital Account**, click on **My Digital Bookshelf** to see a list of books you've checked out. Click on the **Get for Kindle** button, which will take you to the *Amazon.com* site.
5. After logging in with your *Amazon.com* account information, select your Kindle from the list of delivery options, and Amazon will send the book to your eReader the next time you have an active WiFi connection. It will not transfer over a 3G connection – even with a compatible Kindle.
6. The downloaded book will appear on your Kindle's home page.
